Reunius of the Old First.

The following notice, issued yesterday, fully explains itself:
The "Old First" will celebrate its thirty-fifth annual reunion on Saturday, July 18, 1896, at Blanton's Park.
Every survivor is expected to be present, and the words, "Close up," "Close un," sound again as they did in the days when the Old First made its glorious battle recerd. Then let us, as our ranks are thinning out, respond to the call of "Close up" once more, and see "what is left of those we knew."

Flease inform the secretary at once if you can attend, in order that our committee may be informed as to preparing for those that will be present.

MARKET QUOTATIONS.

REPORTS FROM ALL GREAT BUSI-NESS CENTRES OF THE WORLD.

Prices of Money, Bonds, Stocks Grain, Tobacco, Cotton, Cattle, Country Produce, &c., Foreign

NEW YORK, July 14.-Stocks were weak and feverish throughout the session. There was considerable pressure to sell the Industrials, and certain of those stocks sustained serious loss. The market was adversely influenced by talk of heavy gold shipments and the further, loss in the Treasury gold reserve. According to for-Thursday and Saturday will be larger than is generally expected. The talk of a third presidential ticket to be named by the sound-money Democrats who have refused to accept the Chicago platform added to the depression. Speculators were also impressed by the drop of 1 per-cent, in the new government 4s, and there was discussion about the probable action of the administration in case a new

action of the administration in case a new bond issue should be necessary. London houses bought the international issues at the decline, but the foreign operations did not check the downward tendency of the market. The break in the Induatrials was the chief feature of speculation. Cotton-oil preferred, which sold at 471-2 yesterday, fell to 41, while Leather, preferred, sold down from 55 to 50. The low price of Lard makes it difficult

for the former company to sell its pro-ducts. The slump in Leather was due to forced liquidations, a block of the stock which has been carried in strong hands which has been carried in sugar dropped having been forced out. Sugar dropped from 1881-4 to 1661-2 on European ad-vices. The core carriers and anthracite coalers were notably weak. Burlington and Jersey Central were especially vul-

and the specialties, Cleveland, Lorraine, and Wheeling, preferred, fell 2 to 6; Labelede Gas, 23-4 to 29; Illinois Steel, 3 to 8:2-8; Bay State Gas, 20 to 18; Minnesota Iron, 2 to 24, and Wheeling and Lake Crie, preferred, 2:3-8 to 201-4. Eric, preferred, 23-8 to 391-4.
Speculation closed irregular and in the main weak. The net changes show losses of 1-4 to 51-2 per cent. The total sales were 203,900 shares, including 52,100 Sugar,

TOBACCO CROP REPORTS.

From Haifax county; A tobacconist of Richmand replies that while some fields showed flopping, tobacco has again assumed a healthy stand.

From Caroline county; Mr. S. Shelburne, who attended court Monday, says he heard few complaints, and that the crop is not damaged, but looks well.

From Louisa county: Our auctioneer, Trice, says: Tobacco is coming out wonderfully well, and corn the finest ever seen in the field.

Mr. L. B. Vaughan, the warehouseman, says he hears no bad crop news worth mentioning.

A gentleman coming from the James-River Valley says tobacco looks badly, with damage on hillsides and in bottoms.

Mr. John H. Macin, of Petersburg, says that he believes dark tobacco on the South Side has been badly damaged by the rains.

Medor S. W. Venable, of Petersburg, heard no particular complaint. Inquiry among commission-men generally reveals very little bad crop news to-day.

Mr. P. W. Ferrell, of Danville, Va., was on the Silp to-day.

From to-day's indications, some large dark tobacco sales will be reported this week.

Mr. W. L. Staples continues to be abed. TOBACCO CROP REPORTS. .

From to-day's indications, some large dark tobacco sales will be reported this week.

Mr. W. L. Staples continues to be abcd, in a very weak and unchanged physical condition.

The gold- and gilver-plank discussions are very lively among tobacco men. There are enthusiastic advocates of both metals, and a good many would gladly accept either in trade just now.

Dark tobacco is more apt to be poor than otherwise. There is such a thing as too early planting to make a rich crop, Early plants don't insure a good crop. The canvas-cover protection is well enough, but the best tobacco must have a full ripening season to give it flavor, body, and oil; just such weather and time as is required to mature the best fruits mellow, sweet, and in ripe conditions.

Mr. W. L. Staples continues to be abed, in a very weak and unchanged physical condition.

The gold- and silver-plank discussions are very lively among tobacco men. There are enthusiastic advocates of both metals, and a good many would gladly accept either in trade just now.

Dark tobacco is more apt to be poor than otherwise. There is such a thing as too early planting to make a rich crop. Early plants don't insure a good crop. The canvas-cover protection is well enough, but the best tobacco must have a full ripening season to give it flavor, body, and oil; just such weather and time as is required to mature the best fruits mellow, sweet, and in ripe conditions.

Partinoper Prophice Market.

the first news tending in that directions being the weekly crop builetin from North Dakota, which said the conditions were favorable for rust, and that there was a great scarcity of water. In the last ten minutes there was some explement caused by war talk, it being reported that the Turkish troops had been ordered to mobilize. There was an advance on this information, and the market closed in a perturbed condition.

September wheat opened at from 55% to 65.5c., sold between 55% and 55%c., and closed at 56%c., -5871c, higher than yesterday. Cash wheat was steady, and followed the option in the advance.

Corn was firmer on continued dry weather, and the ineffectual efforts of shorts to secure any, and remained steady in sympathy with the advance in wheat. September corn opened at 27.1-6c., sold between 21.8 and 27.1-5c., and closed at 25.8c., -7-8c, higher than yesterday. Cash corn was firm at a 1-4c advance.

Oats recognized the builtsh tendency, and quiet but strong feeling ruled. The trading was of local character. September oats closed it, higher than yesterday. Cash can devance of Monday's price.

Provisions developed a steady feeling this morning, partly on the advance in hos products of 5c, but there seemed to be very little inclination to buy or sell, the pit being almost deserted. September pork closed 8c, higher than yesterday. September land 21-6c, higher, and September pork closed 8c, higher, and september lieading, stigness. Losses. Closing. Wikkat—

5.146,251 bales; exports—to Great Britain,
2.197,579 bales; France, 42,810 bales; Continent, 1.752,963 bales.
Sun's report: Cotton declined 3 to 9
points, recovered, and advanced 6 to 6
points, recovered, and sees of 157,769 bales,
were again lower to-day, and again prices
were again lower to-day, and again prices
were again lower to-day, and again prices
were reported in Texas. Some of the southern
spot markets were lower, and New Orleans was a shade higher.
The crop news was favorable, but at the
decline prominent interests came to the
support of the market, and bought freely,
and prices railled, and closed at a small
advance for the day. Shorts were good
buyers. Some operators believe that the
rains in Texas to-day have put that seetion beyond the fear of damage by
drought, but at the same time others
claim that much may yet happen to the
crop before picking-time.
